come in
make yourself at home
i'm a bit late
hate to make you wait

but heart songs
are still on my mind
there's never the time
to write down these lines

how can you say
that i don't need you
just be sure
no more, no less
let love confess to you
what you must do

come on
let's hit the road
i'm up to my tricks
i know they seem cold
but heart songs
are all that i am
i use the same words
to say the same things

how can you say
that i don't need you
just be sure
no more, no less
let love confess to you
what you must do

how can you say
that i don't need you
just be sure
no more, no less
let love confess to you
no less
