"Evolution's Falling"

Visit "[Evolution's Falling](#)" on MotoLyrics.com

The lessons that they've learned from history
Should help all men to glorify the hallowed name

Whenever they may reach eternity
They have to realize the rate that they will have to pay

Find the path for us to go
We're looking for an answer
We're searching for the sense

When the Lord comes down to earth
Oh evolution's falling - falling
When the sacred force strikes back
Oh evolution's falling - falling down

Take care of what you saved from older days
So try to share what grows beside the fertile ways

Hunger should no longer tease their fate
They have to realize the age of free and glory days

Find the path for us to go
We're looking for an answer
We're searching for the sense

When the Lord comes down to earth
Oh evolution's falling - falling
When the sacred force strikes back
Oh evolution's falling - falling down

Find the path for us to go
We're looking for an answer
We're searching for the sense
We're looking for a way to go

When the Lord comes down to earth
Oh evolution's falling - falling
When the sacred force strikes back
Oh evolution's falling - falling down
