Remember when the troops has come  
They called them jerks and made them run  
And tell them: home and faith are lies

The world in peace the heights at war  
They name the judge a lying whore  
And lost their right and will to survive

One trip was booked  
By the immigrant hell

They call it the last forever

One trip was sold  
As a ticket to fight

They praise the lord but kill his child  
The speak of death has born the wild  
Just see them fail the game of life

One trip was booked  
By the immigrant hell

They call it the last forever

One trip was sold  
As a ticket to fight

One trip was booked  
By the immigrant hell

They call it the last forever

One trip was sold  
As a ticket to fight
