"Waiting For The Sun"

My head explodes if I don't try to walk on sacred fire
My dreams have told me where the ways to go and find
the signs in my mind

I do everything that I know
Light the flame to an uncertain glow
I miss everyone in the sun
For a bigger one

My eyes can see a growing industry around the planet
My ears have heard what they will do to earth before I
die
What a lie

I tried everything that I could
Trust the future as long as I should
I missed everyone in the sun
For a bigger one

Waiting for the sun
Waiting for the sun
Waiting for the sun
I'm waiting for the sun

I do everything that I know
Light the flame to an uncertain glow
As it burns on the bigger one

Waiting for the sun
Waiting for the sun
Waiting for the sun
I'm waiting for the sun
