## "Steal My Flashlight"

Visit "[Steal My Flashlight](#)" on MotoLyrics.com

Left alone and lost in the dark again  
you steal my flashlight every chance you get  
Once fallen memories when I lost your eyes, but now  
the candle's lit  
Every day the same way (the same way) Please don't  
change (don't ever change)

Stop, rewind the tape -  
play it back for me  
all the things you ever said (all those things you ever  
said)  
we're falling down on me  
Stop, go back -  
and play it for me (please)  
say some more  
all the things saving me (saving me)

It's always night  
when I look down empty streets  
Where is the light  
it's in you right in front of me  
It's dark, I'm scared (Don't be a waste if you promise  
me)  
It's dark, I'm scared (what do I do, what do I do)

Why steal the light that you put right back into  
my light...  
you put it right back into me  
and you know it
