The walls of my mind are closin' in can't get away your
mem'ry won't end
Can't forget about you can't forget about you
Can't forget about you can't forget about you
Breakin' my mind in three quarter time makin' me blue
Can't forget about you can't forget about you
I never stop hearing the music after the song is
through
[guitar]
I still see your eyes your warm gentle smile
It was all worthwhile each moment we knew
Can't forget about you can't forget about you
Can't forget about you...
[guitar]
Can't forget about you...
[guitar]
Can't forget about you...
