Clear water blues, thinkin' of you
Sittin' here fishin', catchin' a few
Spendin' my days just tryin' to lose
These clear water blues

Clear water blues driftin' along
Nowhere to go, now that you're gone
My lonely heart don't know what to do
With these clear water blues

Lookin' out across the ocean
Blue is all I see
And it seems like no matter how far I go
Your memory just won't set me free

Clear water blues won't leave me alone
Keeps on remindin' me why you're gone
My reflection is showin' a fool
In these clear water blues

Clear water blues, still thinkin' of you
Sittin' here fishin', catchin' a few
Spendin' my days just tryin' to lose
These clear water blues
These clear water blues
