You say hello, I say goodbye
You go your way and I go mine
There's not much time for you and I these days
We work too hard, we're gone too much
And we're too tired to even touch
So just how long can we go on this way

Oh, life's too short to love this fast
If we don't slow down our hearts won't last
We can't keep up this pace we're on right now
We burn the candle at both ends
The circle turns, we start again
Let's make our future better than our past
Life's too short to love this fast

Let's take some time, let's get away
Let's pack our bags and leave today
Girl, anyplace would be okay right now
Just leave your pager here at home
And I won't carry my cell phone
We need to find some time alone somehow

Yeah, life's too short to love this fast
If we don't slow down our hearts won't last
We can't keep up this pace we're on right now
We burn the candle at both ends
The circle turns, we start again
Let's make our future better than our past
Life's too short to love this fast

We're spinnin' our wheels
Forgetting how love feels
Let's slow down before it's too late

'Cause life's too short to love this fast
If we don't slow down our hearts won't last
Let's make our future better than our past
Life's too short to love this fast

(Life's too short to love this fast)
Love this fast
(Life's too short to love this fast)

Life's too short
