(Words and Music by Jeff Cook)

You go out on the town, feelin' alright.
Leavin' me here alone, you're stayin' all night.
You're good to me; do something sweet.
Tonight, you're back out on the street.
Lovin' you the way I do is killin' me.

--- Instrumental ---

Be good to me; do something sweet.
Tonight, you're back out on the street.
Lovin' you the way I do is killin' me.

I don't blame you for havin' fun,
As long as I'm your only one.

So go on out, have a time, have a good time.
Don't forget if he asks, you're still mine.
Don't let our love fall apart
'Cause if you do it would break my heart.
Lovin' you the way I do is killin' me.

Lovin' you the way I do is killin' me.
Lovin' you the way I do is killin' me.

All right
--- Instrumental to fade ---
