

Alabama "One More Time Around"

Visit "[One More Time Around](#)" on [MotoLyrics.com](#)

Well, it's concrete and asphalt
Drivin' into work every day
This livin' can't be healthy
But the Lord knows I got bills to pay
And there's others here just like me
They got families to feed

One more time around, time around
On the job is where I'll be found
One more time around, time around
Earn my pay and hear that whistle sound

Well, thunder and lighting
It don't matter, nothin' stops the clock
The radios are blastin'
Mine is playin' country, some play rock
The rhythm and blues of the workplace
We take pride in everything we make

One more time around, time around
On the job is where I'll be found
One more time around, time around
I earn my pay and hear that whistle sound

Five o'clock is comin'
We're all racin' down the same track
Life is a circle
Sometimes we meet ourselves comin' back

Well, one more time around, time around
On the job is where I'll be found
One more time around, time around
Earn my pay and hear that whistle sound

One more time around, time around
Time around, time around
Time around, time around
Time around, time around
