Before he ever made the headlines or won the Winston  
cup  
He survived his share of crashes but he never did give  
up  
The tracks in Carolina where all the Petty's ran  
What kept the motor's running, way back then were you  
the fans

He won seven at Daytona, it was STP and forty-three  
King Richard is a legend and he's a hero to me  
When he wins he waves his hand to the folks up in the  
stand  
And he is dedicated to all the Nascar fans

Well, I wish this year could last forever but the race  
must go on  
He'll hang up his helmet but he never will be gone  
I know he'll drive forever in the heart of every fan  
And he will be remembered as the best that's ever  
been
