"The Night Before Christmas"

Visit "[The Night Before Christmas](#)" on MotoLyrics.com

Ribbons and paper cover the floor
It's been a great Christmas with presents galore
Everyone's happy and I'm happy too
Oh, what a night, oh, what a night
Night before Christmas I had with you

Frost on the window, snow on the ground
Holiday spirit, holiday sounds
Everyone's thankful and I'm thankful, too
Oh, what a night, oh, what a night
Night before Christmas I had with you

It all started underneath that mistletoe
When we were waiting up just to help ole Santa Claus
We were making merry in ways
We'd never thought of when we heard those sleigh
Bells and ole Santa almost caught us

We didn't take no pictures
But I still remember one very special
Twenty-fourth day of December
Oh, what a night, oh, what a night
Night before Christmas I had with you

It all started underneath that mistletoe
While we were waiting up to help ole Santa clause
We were making merry in ways
We'd never thought of when we heard those sleigh
Bells and ole Santa almost caught us

If we don't do this next year, honey, I'm sure gonna
miss it
Why don't we make it a new yuletide tradition
Oh, what a night, oh, what a night
Night before Christmas I had with you
Oh, what a night, oh, what a night
Night before Christmas I had with you
