I like you like me I use you
Use me: we're both happy
I'm a bitch you're perfect for me:
Filthy, rich and handy
I know you can't be impressed
Still I can't leave you linger
All I want's to please you more
I want you round my finger
I need you round my finger
Don't bother educating me
If you like your angels dumb
One way or any other dear
I'll harass you till you're numb
And if you'd like a girl like saint
I'll be your little nun
One way or any other dear
I'll harass you till you're numb:
Na-na-na-numb
You want more and more from me
I want to keep you wanting
Whip me, goad, exploit, insult me
But please look glad to have me
All I want's to please you more
All I want's to tease you more
All I want's to squeeze you more
For reason or another dear
I'll attack you 'til you're numb
