Too much love
Too much love

At times I make you crazy
At times I make you sad
Sometimes you make me feel like
There's no one quite as bad

But there's just too much love between us
There's just too much love between us

We can work it out
Oh, I know we can
'Cause it's all left in our hands
If we give ourselves just a little time
It'll all work out just fine

'Cause there's just too much love between us
Yeah, there's just too much love between us

Silence can be deafening
When you don't make a sound
At times you make me wonder
Why you want me around

I guess there's too much love between us
There's just too much love between us

There are rocky roads
And it's touch and go
And there are times to be alone
But there's something deeper
That we can't explain
It's an everlasting flame

Now there's just too much love between us
Now there's just too much love between us
There's just too much love between us
There's just too much love between us

Too much love between us
Too much love between us

(Too much love)
Too much love between us
(Too much)
(Too much love)
Too much love between us

Too much love between us
(Yes there is)
Too much love between us
(Too much love)
Too much love between us
Too much love between us
