I worry all day and I can't go to sleep at night
Thinking about baby and wondering who's holding her
tight tonight
People say I've been a fool too long, too long
All my friends still ask me why I keep hanging on and
on

And I say, you'll never know until it happens to you
You'll never know all that I'm going through
Love ain't something that flies away
Somebody goes but the feeling stays
And you'll never know until it happens to you

Saturday's rollin' and everybody's rockin' but me
I should go to town but I don't want no company, no,
no, no
Friends say I should be out having fun with someone
I know it's true but if they only knew it's easier said than
done, oh yeah

And I say, you'll never know until it happens to you
You'll never know all that I'm going through
Love ain't something that flies away
Somebody goes but the feeling stays
And you'll never know until it happens to you

Friends say I've been a fool too long, much too long
They just don't understand why I sit at home all alone
by the phone

And I say, you'll never know until it happens to you
You'll never know all that I'm going through
You'll never know, oh no, you'll never know, whoa
You'll never know until it happens to you
