Sometimes all you need is someone to hold you
Sometimes that's all you're looking for
But I'd like to take the time to get to know you
'Cause I don't want this time to be like all the times
before

I want to know you before I make love to you
I want to show you all of my heart
And when I look into those eyes
I want to feel the love inside you
I want to know you before we make love

I've learned from all those lonely nights with strangers
It takes time for real love to be found
I feel the invitation of your body
But I'd like to look inside your soul before I lay you
down

I want to know you before we make love to you
I want to show you all of my heart
And when I look into those eyes
I want to feel the love inside you
I want to know you before we make love

If we take it slow together
We might make it last forever

I want to know you before we make love to you
I want to show you all of my heart
And when I look into those eyes
I want to feel the love inside you
I want to know you before we make love

I want to know you before we make love, before we
make love
