

2nd Half "Go"

Visit "[Go](#)" on MotoLyrics.com

Where inside is your place in me
You know I tried to feel your harmony
Each day I find I lose a little more
I've left behind the way I was before

I've got a ways to go
So many days ago

No one seeing what it's done to me
Throughout my being, it makes me who you see
Communication, so often lose the word
Through this expression, the way that I'll be heard

I've got a ways to go
So many days ago
In different ways, which I know
I've got a ways to go

Well I don't want to
But then I've got to
Well I don't want to
But you make me, but you make me
But you make me want to
And then I've got to
But you make me want to

I've got a ways to go
So many days ago
In different ways, which I know
I've got a ways to go

pretend
defend
pretend
