MISS OUT

Music by Tish Meeks, Jonny Tomaiko

Lyrics by Tish Meeks

V1

Will you let me in  
I won't hurt you like the others  
I'm not like them - I swear  
I know they're only words I speak  
Can you find the difference in me  
Let me show you, let me show you

Chorus:

You gotta risk it all, life is short  
And do you really wanna miss out?  
Do you wanna miss out?  
You know that it's you're call  
And I'll wait here, yeah I'll wait here 'til you make it  
Do you really want to miss out?

V2

What are you doing here?  
Do you even know yourself?  
You're not making any sense  
Are there feelings you ignore?  
Coulda sworn you wanted more  
I will give it, I will give it

Bridge:

Just kill me now  
And spare my broken heart

V3

Why would you close the door?  
Why is this the way you want it?  
Now you'll never know for sure  
What if you just threw away  
The one who would have stayed  
With you forever, yeah forever?
