If only for a while

the trailerpark you used to spend your holidays  
well it used to be my home

and when i met you i was falling down from grace  
got used to living on my own  
late september, back in 92  
we watched the waves roll down the shore  
and i felt something then, i haven't felt before

ooh i remember everything she had to say  
as if she said it yesterday

won't you take me on a trip around the corner of my  
mind  
i would like to get away from here, if only for a while  
if only for a while, if only for a while.....only for a  
while

now i'm older, and so my life has changed  
im not the boy i used to be  
i found my faith now i hope you found your peace  
i hope you found your freedom just like me

oh i remember everything she had to say  
as if she said it yesterday.....

won't you take me on a trip around the corner of my  
mind  
i would like to get away from here, if only for a while  
if only for a while, only for a while.
