special, you're so special
more than anyone
on the planet
life is your show
you've got the leading role
no one else counts,
no one else
watch your head
you could hurt it
on the ceiling
you're so big
I know you think you're a rebel
but you're kissing the devil
hey, this way won't be leading anywhere

this is the way that you'll go down
oh, I can see you'll hit the ground (I can see you'll hit
the ground)

one time,
only one time
in your lifetime
you should be treated
as you deserve to be
as a loser
'cause all you are
is a loser
