hey Mister jukebox  
play that song for me  
don't be a jokebox  
just push play and you will see

girls in the corner  
are they having fun  
conversations  
'bout clothes and make-up  
that's not my topic  
though they're looking tropical  
but the tape in my pocket  
would make them dance  
is this your party?  
oh my god  
this is my advice now

hey Mister jukebox  
wanna hear that song from you  
don't be a jokebox  
if you don't play it, then you won't see

the party's over  
before it started  
and everybody  
regrets the bus fare  
you just plug your cables  
start turning your tables  
but as far as I see  
this ain't the mood that it used to be

I'll keep on waiting for you  
I'll keep on waiting for you  
to realize, to hear the shouts and cries

that's not what I spoil my blue suede shoes for...
