Let this be not of our hands, but by Your Spirit
Let this be not of our hands, but by Your Spirit

Lord we don't want to move without You
No we don't want to work in vain
Lord you know we want to be used by You
But we don't want anything built in our strength

Cause we don't want to move
We don't want to move without You
No, we don't want to move
Don't want to move without You

Let this be not of our hands, but by Your Spirit
Let this be not of our hands, but by Your Spirit
Cause we don't want to move, don't want to move,
Without You
We don't want to move, don't want to move, without
You

Lord, You know we don't want to go before You
No we don't, want to keep running
So Lord we pray that we will stay found in You
For without You, we cannot do anything

We don't want to move
We don't want to move
Don't want to move, without You

Not by power, not by strength
But through Your Spirit and by Your grace
If it's on our hearts, we'll be on our face
