Baby I love you and I'll never let you go
But if I have to, boy I think that you should know
All the love we've made will never be erased
And I promise you that you will never be replaced

Baby I love you and I'll never let you go
But if I have to, boy I think that you should know
All the love we've made will never be erased
And I promise you that you will never be replaced

I love you, yes I do (yes I do)
I'll be with you as long as you want me to
Until the end (the end) of time (of time)

From the day I met you I knew we'd be together
And now I know I wanna be with you forever
I wanna marry you and I wanna have your kids
Thinking never compare to the feelings of your kisses
I can say I'm truly happy to this day
You make me think that I could live my life like this
everyday
There's never been a doubt in my mind
That I regret ever having you by my side
But if the day comes that I have to let you go
I think there's something I should probably let you know
That everyday that I spend with you
I will miss you cuz I'm happy that I had you at all

Baby I love you and I'll never let you go
But if I have to, boy I think that you should know
All the love we've made will never be erased
And I promise you that you will never be replaced

Baby I love you and I'll never let you go
But if I have to, boy I think that you should know
All the love we've made will never be erased
And I promise you that you will never be replaced

I love you, yes I do
I'll be with you as long as you want me to
Until the end (the end) of time (of time)
