Some where, in time.
Is, the moment.
When I'd, fall in love.
With the girl, I'm dreamin of.

All, I need.
Is to get down, and plead.
And ask her, to say.
Don't forget the words, I say.

(Chorus)
From, this moment.
There is only love, no torment.
And what I want, to do.
Is, to hold you.
Close, to my heart.

Right now, I'm begining to see.
That you are, true beauty.
My heart, is startin' to heal.
And the pain, I no longer feel.

(Chorus 2x)

From, this moment.
Is only love, no torment.
And, my heart.
Will no longer fall apart.
