Stay away from me everybody, 'cause I'm in my sin  
I said, stay away from me everybody, 'cause I'm in my  
sin  
You know I'm beggin' you, somebody give me my gin.  
Stay away from me, unless you wanta big fight  
Stay away from me everybody, unless you wanta get  
involved in a fight  
I'll fight the army and the Royal navy if I don't get some  
gin tonight  
Hey, when I'm feeling high, everythings all right  
Hey, when I'm feelin' high, everything is really all right  
Gin is gonna be my wife for the rest of my life  
Give me my gin  
I can get a drink of gin, well, almost any old time  
I can get myself a drink of gin, yeah,  
Yeah, well, almost any old time  
If I can't get myself a drink of gin  
I guess I'll have to settle for red wine  
I said stay away from me, unless you wanta start a  
fight  
Yeah, stay away from me everybody unless you wanta  
start a big fight  
I'll fight the army and the navy if I don't get myself  
some gin tonight.  
Now now now, listen to me baby, hey, stay away from  
me everybody, 'cause I'm in my sin  
Whoa, stay away from me everybody, 'cause I'm in the  
sin baby  
I'll fight the army and the navy  
Somebody, somewhere, give me my gin.
