Take it easy my friend
Grab the chance will you can
It's time for us to move on
Let the world sing you a song

Take it easy my friend
Wipe the tears from your eyes
Theres a magic in the air tonight
High in the light of your sky

You've got to do what you wanna do
(Do what you wanna do)
Say what you wanna say
(Say what you wanna say)
And don't be afraid
As long as everybodies happy
And everybodies feeling okay
You've got to do what you wanna do
Say what you wanna say, now

Make it easy my friend
Cause the sour will come down
Just be true to yourself
Everything will be alright

Take it easy my friend
Wipe the tears from your eyes
Theres a magic in the air tonight
High in the light of your sky
