### "Goodnight Song"

Lying here, singing my lullaby  
Letting time pass me by  
Counting stars in the sky  
And don't let the bedbugs bite

Just turn off the light  
Make me feel all right  
Bidding farewell and goodnight

Lying here, listening my clock tick-tick  
Leads me into sweet dreams  
It makes me start to think  
What do our Teddy bears do?

Just turn off the light  
Make me feel all right  
Bidding farewell and goodnight

Outside my window  
Hear sounds of the little fellow  
Oh, but I don't know  
Will they sing until tomorrow?
