Don't sleep with your back to me
Keep your eyes shut, keep your mouth shut
All beause you couldnt keep your legs shut.
I broke it off while she choked to death.
She screamed my name with her final breath
Bring me your head on a silver plate

(Chorus)

I don't need real friends
I don't need true love
There are no real friends
There are no true loves

I don't break promises
I don't break hearts
I'm busy breaking backs
Get the fuck over yourself
I have brought this thing for revenge
Get the fuck over yourself
I have brought this thing for revenge

(Chorus)

I am the heartless monster
And I'll burn your fuckin' house to the ground
I will bury you alive
And tear your fucking soul apart
APART!
