I propose a toast to the 21st century, I can't close my  
eyes at night  
I propose a toast to the 21st century, I can't close my  
eyes at night  
Awareness is inevitable, destruction is not preventable  
Awareness is inevitable, destruction is not preventable  
Bastardization of human life, modernization of  
efficient life  
Cutting the corners, cut the cord  
There are no mourners, they cannot mourn  
Bloodthirsty, unfeeling, outgunned, outmanned  
Situation has far exceeded critical  
Out fate was sealed when they flipped the fucking  
switch  
We are all beyond the point of no return  
The foreground and background have merged  
We are all beyond the point of no return  
The foreground and background have merged
