this feels strange
the way i want you
every moment that i can
blissful feeling that i get
when fingertips trace my skin

I could love you
I could love you

surely this could not be real
you match everything i feel
lips like morphine to my body
your beads of sweat keep me alive

i could love you
i could love you

yeah you turn me on
you feed my fire
you found a way
you mesmerize me with every move
i hope you stay

mmmm, mmmm

yeah you turn me on
you feed my fire
you found a way
you mesmerize me with every move
i hope you stay

you turn me on
you feed my fire
you found a way
you mesmerize me with every move
i hope you stay

mmmm
i could love you
