Wake up to the blue sky grab your shades and let's go  
for a ride. Breakfast by the ocean We'll do lunch at  
sunset and vine Every day's a dream in California  
every night the stars come out to play wish that I could  
always feel this way There's something about the  
sunshine baby I'm seeing you in a whole new light  
Outta this world for the first time baby oh, it's so right  
There's something about the sunshine There's  
something about the sunshine In Hollywood we're  
rockin' in Malibu we hang out and chill It's all about the  
shopping from Melrose to Beverly Hills Every where's a  
scene and now we're in it I don't want to paint this town  
alone, oh no When I see you smile I always feel at  
home There's something about the sunshine ,baby I'm  
seeing you in a whole new light L.A's a breeze with the  
palm trees swaying Oh, it's so right Now that you're  
here it's suddenly clear the sun's coming through I  
never knew what ever I do it's better with you  
Yeah, Yeah There's something about the sunshine, baby  
I'm seeing you in a whole new light Outta this world for  
the first time baby Oh, it's so right (REPEAT) There's  
something about the sunshine, baby I'm seeing you in a  
whole new light L.A.'s a breeze with the palm trees  
swaying Oh, it's so right.
