Old man chicago
Heaven is on fine (?)
Living life if only
you're given his own time
When your feelings comes hallow
When you've given it some time
Feelings comes floatting leaving all unsure nothing but
lies

oh yes you do now (x3)

Oh they were millions, we were just one
it's just this heart of mine
Heaven is not far
Leave us a friend cause living a life is lonely
Leave us a friend it's just live a life if only now yeah

Old man of fortune
Heaven is on cry
Living life if only you'd taken his own drug
When your feelings comes flatting
When you've given his own lies feeling comes helling
Leaving all unsure nothing else but gorse

oh yes you do now (x3)

(chorus)

singing now ohohohohohohohohoh

(chorus)
