"Wasteland"

We're apart of something new
And you can hide away
You can shake the state
Give me something to pursue
To ease my mind a bit
When you tried to quit
Don't turn your heart to something blue
To give a high away
With nothing to replace
We're apart of something new
Don't matter where you stand
We are apart of wasteland

If lack time
It's unbelievable
Into new life
It's undeniable
Time to let down
The city goes
Time to let down
Time to let down

It's every bodies wasteland
Kicking from the cradle
It's every bodies wasteland
Falling from the fable
Wasteland

Don't give in
Don't lose control
You outta admit
But we're apart of it
Then you turned on your soul
No matter what you planed
We're apart of wasteland

If lack time
It's unbelievable
Into new life
It's undeniable
Time to let down

The city goes
Time to let down
Time to let down

It's every bodies wasteland
Kicking from the cradle
It's every bodies wasteland
Falling from the fable
When everything drifts away
You always let yourself down
It's every bodies wasteland
Kicking from the cradle
Wasteland

If you lack time
It's unbelievable
It's time to let down
It's time to let down

It's every bodies wasteland
Kicking from the cradle
It's every bodies wasteland
Falling from the fable
When everything drifts away
You always let yourself down
It's every bodies wasteland
Kicking from the cradle
Wasteland
