The earth existence is terminated prayers are not  
heard  
Shaking hands are reaching up into the blackened sky  
Minds are lost and searching endlessly for a place to  
Torture until there is no sanity left on this mother  
fucking planet

Infectious your mind is slowly turning  
Disease is spreading everywhere

Decomposition begins to set in  
The feast now begins with the kings devourment

From the dark and the desolate  
The most vile breed

For the fallen dreams must fall the last images we will  
ever see  
Your narrow mind doomed your soul your total being

Feeding to admonish thirsting for blood

For blood

The earth existence is terminated prayers are not  
heard Shaking hands are reaching up into the  
blackened sky Minds are lost and searching endlessly  
for a place to Torture until there is no sanity left on this  
mother fucking planet

Nothing can stop it now  
Ripped from the body  
The most vile breed
