

Modern Day Escape

"Autumn"

Visit "[Autumn](#)" on MotoLyrics.com

Feel the breeze again-
Learn to breathe again!

Fragile moment- promise broken
Scars remaining- words unspoken
Pain consuming- no one caring
Smile disguises- the guilt you're wearing

Autumn leave all this behind you
Open your heart Love will find you

Feel the breeze again-
Learn to breathe again!

Chasing memories- truth unfolding
Are you finding life worth holding?
In the shadows- faith is falling
I can't find you- are you calling?

Autumn leave all this behind you
Open your heart Love will find you

I remember when
Your heart was full of light
With wide eyed dreams of flying high
When did it turn cold?
When did it feel
Like the walls are closing in?
You can live again.
Would you like to really live again?
