"Holding On"

Visit "[Holding On](#)" on MotoLyrics.com

I bid adieu my friend wish the time not end
I only pray i'll see you again
My eyes are fixed ahead
What the future holds is so uncertain which road am i
to tread
I can still remember all the times we spent laughing in
the rain
Now life's not the same
The journey wears me down but i keep holding on
When hope just can't be found i keep on holding on
(and in the end i'll win)
Who am i to be now time has blinded me
From all the dreams i used to see
I feel so alone
Is there anybody out there someone to lead me home
I often still remember in my mind i thought i'd shine
without a doubt
The world just snuffs me out
