Care to dance- hypnotic lights and sounds have left me
in a trance
Need a chance- to she'd this lie and show inside and
leave this mask i wear behind
I see everything in this little world- through my disguise
I'll be anything that I want to be- don't look in my eyes
Pain within- i long to be set free from this prison of my
sin
Will it end- these daunting chains, this taunting pain-
i'm about to go insane
I'm sick of the me i see- talking the talk but not walking
the walk
I'm sick of the me i see- swayed by the winds of
conventional thought
Don't want to be a closet Christian
I want to show the world I'm a man on a mission
Within me burns a consuming flame
I'm not ashamed of the Name * so how do you like me
now
I see everything in this little world * through my
disguise
Help me be everything that i want to be * and see
through Your eyes
Care to dance * need a chance * pain within * will it end
