Sigh and breathe  
I conceive piercing eyes  
That see through me  
Bleeding heart - Good intentions  
Unexcused hypocrisy

I see them rendered helpless in the corner of my eye  
I know it's for the least of these that you had to die  
Fear has bound me lifeless in my easy chair of grace  
Instead of help I turn away can't look them in the face

Timeless battle - endless seige  
Flesh and spirit collide in me  
Lift me high - don't let me be  
Another casualty

Sometimes I feel life passing by as I am standing still  
In my safe and sheltered world I choose what is real.  
I say that I believe but then misrepresent your name  
Look at my reflection I'm the only one to blame

When will I know  
To love you is more than just a show  
When I look inside help me see  
More of you - less of me
