

## Agony

### "Millennium"

Blinded society  
Despair runs across their life  
Spiritual warfare  
Hate runs across mankind  
Eye for eye Look their faces and cry  
Cry for cry  
Dying in this decadent land

Blinded peace  
Desire and dreams are subdued  
Sarcastic minds  
Taking us to sadistic war  
Lie for lie  
Mankind in the abyss  
Do or die  
Rotten culture we have crowned

Look the world  
Black shadows  
Around anywhere  
We cry in pain  
Were losing the calm  
People escaping, trusting religion  
People lie to win  
People lie forevermore  
Human kind heading towards the end  
False prophets  
Puppets of faith
