Lost in her eyes, lost in her daze  
lost in her soul, dreamlike despair  
vanished in thoughts, nothing remains  
bleeding in pain, you're blowing my brain

Into nothingness  
worlds of emptiness  
gods of mean spirit:  
your names i invoke

People bear the mark of Cain  
all possessed by psycho brains  
i do not believe in this lie  
i just want to live my life

Into darkness  
world of worthlessness  
war between spirit  
all strings are pulled

People bear the mark of Cain  
all possessed by psycho brains  
i do not believe in this lie  
i just want to live my life
