Chirac racist motherfucker  
Throwing your nuclear shit  
Into our ocean  
In front of our coast  
Killing the fauna and flora  
Demonstrating the world your Power  
But youre nothing, just shit  
You fucking piece of shit

Worlds last power  
Mutilation, domination  
Of the lost empire  
Cause we are not your  
Slaves anymore  
We are no more your puppets!

Fear of the end  
Invading you  
Evil control  
Just hell on earth  
Stop the madness  
The nuclear scum  
Feel the pain Of agony

I hate you

Why dont you throw your scum  
In front of your own house?  
Why dont you show your egocentricity  
In front of your own country?
