DRIVE MY ROCKET (UP URANUS)

(All Our Yesterdays / Drive My Rocket US compilation version)

I was born in 1956  
In the back of a pink cadillac  
My daddy is an alien  
He ain't never coming back  
Coming back

Driving through the stars in my rocket ship  
No co-pilot to give me no lip  
There's no lip

Now we are lost in outer space  
Leave all your problems with the human race  
In outer space

Drive my rocket up Uranus, baby, till it hurts  
Drive my rocket ship just a little farther

My carburettor's clogged  
And I'm getting nowhere  
Oh, I really feel like a man when you run your  
Fingers through my hair

Now we are lost in outer space  
Leave all your problems with the human race

Drive my rocket up Uranus, baby,  
Yeah drive my rocket ship

It's cold  
September  
Feeling depressed  
The nights are long  
And you need some rest  
Tick tick tick tick tick tock  
I can't stand that  
Damn alarm clock  
Drives me fucking crazy  
7.20 every morning I'm awake and alive  
My teeth are brown

Nicotine stain  
My heart is beating  
Boom boom boom boom boom boom boom  
Baby

Drive my rocket up Uranus, baby, yeah  
Drive my rocket ship  
Yeah  
Drive my rocket ship, baby  
Baby

(Breathing)

Love, love, love, love  
Love, love, love, love  
Love, love, love, love  
Love, love, love, love

Drive my rocket ship, baby  
Drive my rocket ship just a little faster  
Drive my rocket up Uranus, baby  
B - b -b b-baby

Love, love, love, love....
