She said gotta have a talk
Meet me in the school yard five o'clock
Turned into a fight
Couldn't get her out of my head last night
Didn't want to go there, didn't want to hurt
Didn't want to lose a friend, not for what it's worth
He's creeping on ya everyday anyway, but not with me

Girlfriend
You're hanging with a loser
And he hit on me
I would never hurt you
Girl, you gotta believe
Don't mess before you know the facts, relax
Girlfriend
You're messing with a player
And he's so untrue
Better tell him later or he's gonna hurt you

Tried to make nice, tried to be friends
But she had to bring it up again
Said chill out, relax, it's all good
I let it go don't you wish you could
It's all him, stop yelling and just think
He's the one who asked for my my space link
Don't handle this all alone
Better look around, find you what your people know

Girlfriend
You're hanging with a loser
And he hit on me
I would never hurt you
Girl, you gotta believe
Don't mess before you know the facts, relax
Girlfriend
You're messing with a player
And he's so untrue
Better tell him later or he's gonna hurt you

Girls hissing but their ugly words are missing me
Boys dissing but you know they're gonna hit on me
They're all stressing about the facts

Chill out, relax
Too busy watching their backs

Girls hissing but their ugly words are missing me
Boys dissing but you know they're gonna hit on me
Gotta connect, respect, protect your neck
Forget all the negativity

Girlfriend
You're hanging with a loser
And he hit on me
I would never hurt you
Girl, you gotta believe
Don't mess before you know the facts, relax
Girlfriend
You're messing with a player
And he's so untrue
Better tell him later or he's gonna hurt you

Girlfriend
You're hanging with a loser
And he hit on me
I would never hurt you
Girl, you gotta believe
Don't mess before you know the facts, relax
Girlfriend
You're messing with a player
And he's so untrue
Better tell him later or he's gonna hurt you

Girlfriend {4x}
