The air my lungs require surrounds me
And all I have to do is breathe
In the same way your spirit envelops me
Come envelop me
Come take over me

Close your eyes
Then we'll start to see
You shut them tight
Now we can believe

There is no distance between us
(I can see you now)
And you don't answer to time
But you seem galaxies away from me
And I spend my whole life looking for a sign

Close your eyes
Then we'll start to see
Shut them tight
Now we can believe

It's taken me so long
To find out where you are
You live in me

Caught up in my body
You won't find me there
You can't touch my thoughts
You can't touch my dreams
Cause they're not there

We need you
We can't see you
We know you're there
Just like the air

Close your eyes
Then we'll start to see
Shut them tight
Now we can believe

It's taken me so long
It's taken me so long
It's taken me so long to find you whoa
We know you're there
Just like the air
