She asked me if I loved Jesus and does that make you
better than me?

A better liar and faker and hider than you, but I'm not
better than you

Cause Jesus loved me first, when I was not so lovely

Cause I need grace just as much as you do

Just as much as you do

Cause I make mistakes just as much as you do

Just as much as you do

I'm so poor when it comes to consistency but so rich
when it comes to grace

Would you trade this life for anything? I can see the
answer's on your face

We're in this together now and I know we'll make it out
