All this time I was thinking you were mine  
You promised me you would never leave  
Guess you changed your mind

Whoa, I did not see this coming  
Oh no, no, Oh no, Oh no

When did we change, when did we lose it?  
Were we in love, or did we confuse it with promises we  
couldn't keep?  
I'm still in love, I know we can do this  
But you moved on, you're already through with me

We went from naming our kids to changing your name  
in my phone  
And all the time I spent with you, I spend it alone

Hold on there's so much more to say  
Hold on do you really feel this way?  
Wait, hold up, there's so much more to say  
Wait, hold up, you really feel this way?
