The flow's brand new
Matty got me hittin this Rusko type shit that you don't
hear me do
When the kid come through
I got ladies on each arm, I had you thinking they came
with the suit
Outfit pretentious, this shit ain't for the normal man
Middle of the floor money flying out the rubberbands
Girls gravitate, we magnetic, got the upperhand
And you gotta understand

I want her toes done up, with her fingernails matchin
Cause her man's outta town and she wanna get to
scratchin
On the back of neck, I be standin at attention
After we get the check, then it's time we get to smashin
On the floor on the bed, shorty got the bomb head
Baby gave me all of her knowledge and now she brain
dead
She got me handlin business, leavin a deep tread
I got her legs shakin, i got her face red

If you came to the club and you wanna get rubbed
And you got a mean ass and your hair done up
Better not act a fool when it's time to get loose
Shorty better make it work in her birthday suit
Brought your friends to the club and you all dolled up
In ya new set of heels with ya purse matchin
Better not let me down, don't blame it on the Goose
Shorty better make it work in her birthday suit

In ya birthday suit
Goin crazy in ya birthday suit
Makin babies in ya birthday suit
You amaze me in ya birthday suit

I can fit a couple in the coup
She say she got a friend that'll roll, so now I'm thinking
bout what we can do
In the club wit my crew
Breakin hearts left and right, I better not get no blood
on my shoes

This beat's official, Matty C done wrote the letterhead
Callin me the captain makin waves up in her waterbed
The way we downin shots, probably wake up feelin
better dead
Upstate party is in full effect

If you came to the club and you wanna get rubbed
And you got a mean ass and your hair done up
Better not act a fool when it's time to get loose
Shorty better make it work in her birthday suit
Brought your friends to the club and you all dolled up
In ya new set of heels with ya purse matchin
Better not let me down, don't blame it on the Goose
Shorty better make it work in her birthday suit

In ya birthday suit
Goin crazy in ya birthday suit
Makin babies in ya birthday suit
You amaze me in ya birthday suit
