I've been waiting for u for a long long time and here u stand in front of me, but what if u say yes would i be ready what if u say maybe would i walk away our wait for an answer.

Guy of my dreams black hair like silk green eyes and a sense of humor to makeme laugh well i wall over to u and sit down and ask u the question u say yes.

Guy of my dreams black hair like silk green eyes and a sense of humor to make ma laugh. The next day u pick me up that date is a walk on the beach and a picnic.

After words u drop me off at my door and kiss me good night.
