[Chorus]

Some kind of anything
Some kind of anything
Some kind of anything
Some kind of anything

Give me a gun, hey I want to be someone
Too tired to move
I never get the dreams I choose

[Pre chorus]

I dont want to understand anymore
I dont want to understand anymore

[Chorus]

What are you afraid of
Something new might be better
No matter what I say or do
You turn me into what you want to
Ive got no reason to hate you
But I hate you for no reason
The world that we wanted
Just wasnt worth the waiting
