Have you done what you wanted?
Or were you overcome and daunted?
Have you filled your idol's shoes?
Or found wrong in everything you choose?

Have you loved?
Or have you cried?
Have you even tried..?

Are you where you wanna be?
Have you said all you could, or only what you felt you should?
Do you see only what you want to?
The world is out here waiting, why don't you come and join it?

Have you been where you wanted?
Or is your past something that's haunted?
Have you been proud of yourself?
Or not fulfilled what you set out for?

Have you loved?
Or have you cried?
Have you even tried..?

Are you where you wanna be?
Have you said all you could, or only what you felt you should?
Do you see only what you want to?
The world is out here waiting, why don't you come and join it?

Live your life!
Don't become a spectator in your own story!
Live your life!
Don't fade into the background; don't hide amongst the shadows while you're here...

Don't go simply hiding anymore!

Are you where you wanna be?

Have you said all you could, or only what you felt you should?
Do you see only what you want to?
The world is out here waiting, why don't you come and join it?

Are you where you always thought you'd be?
Have you said the things you told yourself to say?
Do you see what's there instead of all your lies?
The world is out here waiting,
The world is never fading,
We won't be here forever,
So why don't you come and join us now?
